

Indonesia
Agenda 8 : Future role and method of work of the Committee
By. Ms. Runggu Prilia Ardes

Mr. Chair,

Indonesia takes note and welcomes the increasing number of member states and observers in the meeting of Legal Subcommittee Meeting. We also acknowledge the long list of item pending issues discussed in our meeting.

To smoothen and accelerate the discussions, Indonesia encourages the Committee to consider to establish ad-hoc expert groups with their respective workplans.

Furthermore, Indonesia is of the view that it is necessary to coordinate discussions on several STSC and LSC agendas such as, inter alia, Long Term Sustainability, Small satellite and Space Traffic Management.

Thank you
