

# Space for a Sustainable World

## Women in Action

An exhibition  
presented by  
Fiorella Coliolo and Benoit Delplanque

TIMKAT

5 years ago, we created *Space Girls Space Women* an exhibition dedicated to girls and women who are passionate about Space.

.... More than 50 were portrayed around the world

The exhibition supported by ESA, Sipa Press, CNES, ASI, Nereus, GSA, Universcience and Cité de l'Espace was staged in 20 European cities ...

... and still travels to inspire young girls and students.

Space Girls Space Women was very well received by the media and the public : we proposed to look at Space activities from a different angle, a women's view of Space.

**LA FABRIQUE DU NOUVEAU MONDE**  
 par Dominique André  
 les mardis et jeudis à 19h32

Interview de Fatoumata Kebe par Dominique André, en podcast :

<http://www.franceinter.fr/emission-la-fabrique-du-nouveau-monde-femme-de-menage-dans>

Fatoumata Kebe est astronome franco-malienne. Elle aime se présenter comme étant femme de ménage dans l'espace.  
 Fatoumata a 29 ans et a déjà eu plus de quatre fils : travailler avec sa fille.  
 Après un bac S, une licence de mécanique et un master des Baties, elle finit tout d'astrophysique.

**PHOTOS. Des femmes photographes explorent l'univers pour l'exposition "Space Girls Space Women"**

2015/06/18 - Les femmes jouent à l'espace. Et c'est une révolution. Comme les hommes, elles ont le droit de photographier l'espace. Elles ont même le droit de photographier les autres astronautes. Elles ont même le droit de photographier les autres astronautes. Elles ont même le droit de photographier les autres astronautes. Elles ont même le droit de photographier les autres astronautes.

**TV5MONDE**

**Espace : les femmes prennent leur envol**

L'expédition « Space Girls, Space Women » pose son regard photographique sur l'espace et les femmes. À travers une série de portraits, l'experte de photographie spatiale Nika et l'astronome franco-malienne Fatoumata Kebe racontent de l'espace, du quotidien, des passions et des perspectives de l'espace.

**Exposition "Femmes de l'espace": Fatoumata Kebe, doctorante en astronomie**

À Paris, une exposition met à l'honneur les "Femmes de l'espace". Paris a été la France-maison Fatoumata Kebe, jeune doctorante en astronomie à l'Observatoire de Paris et à l'Observatoire Paris en Mont-Curie, France. La 1<sup>ère</sup> mondiale.  
 Monsieur Kebe est une femme de l'espace. Elle a travaillé dans les laboratoires de l'Observatoire de Paris et à l'Observatoire Paris en Mont-Curie, France. Elle a travaillé dans les laboratoires de l'Observatoire de Paris et à l'Observatoire Paris en Mont-Curie, France. **ELLES ONT LES SPACE GIRLS**

We are now launching the production  
of a new exhibition

# Space for a Sustainable World Women in Action

- to highlight the key role of space technologies in the transition towards a sustainable planet
- to show how girls and women are empowered and involved in this transition through space technologies.

## Space for a Sustainable World - Women in Action :

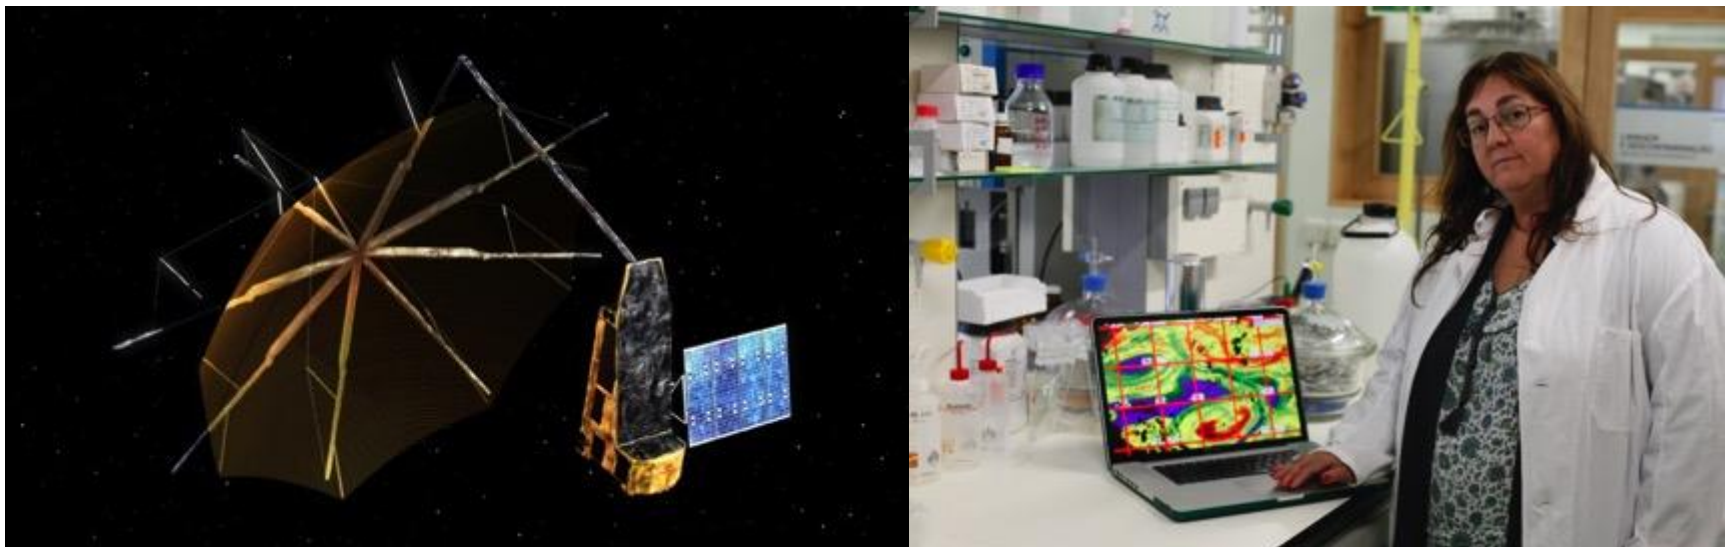

The exhibition will be composed of the portraits of 17 girls and women throughout the world where each portrait encapsulates one of the UN's Sustainable Development Goals (SDG) and the solution that space technology has to offer.

Reporters around the world will meet girls and women and record their testimonies on how a range of space technologies can be applied,

technologies such as:

- Earth observation and remote sensing
- satellite communications
- navigation systems
- scientific research into atmosphere and space
- innovation in energy management and photovoltaics
- optimisation and monitoring applications
- experiments carried out on board the ISS or Concordia
- and much more...

**.... will be featured in Space for a Sustainable World  
Women in Action**

Space for a Sustainable World - Women in Action will put together :  
**17 Sustainable Development Goals (SDGs)**  
**17 Girls and Women**  
**17 Countries**

The 17 girls and women involved will represent a broad variety of origins, ages and professions. Ideally we hope to collect our information from 17 countries with local reporters. Whether scientists or users of space technology, each will become her country's ambassador in the promotion of women's involvement in space activities and girls' interest in the sciences in general.

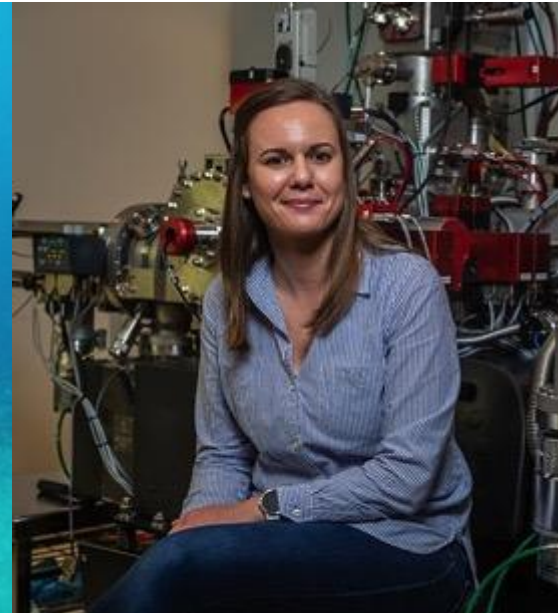

The portraits of women will look at the concrete applications of spatial activities in the areas covered by the Sustainable Development Goals (SDGs):

- Poverty
- Food
- Education
- Gender equality
- Peace
- Oceans
- Water
- Biodiversity
- Energy
- Climate Change
- Health
- Development
- Cooperation

We plan to start the production of Space for a Sustainable World - the 17 girls and women portraits in Q3 2020, to be ready for an inaugural exhibition in Q1 2021

...and we are now starting to look for partners to produce this new exhibition with us

We are now in the process of placing  
*Space for a Sustainable World – Women in Action*  
under the patronage of UNOOSA  
who kindly invited us to this panel

UNITED NATIONS  
Office for Outer Space Affairs

*Space for a Sustainable World – Women in action*  
**Outlook and Opportunities for partners**  
**2021-2023**

- The exhibition would be inaugurated in iconic places such as United Nations Headquarters in New York (tbc) or another international emblematic place.
- Space for a Sustainable World will travel internationally during 3 years with the help of our partners and with our experience in touring exhibitions.
- We will target international events, universities, municipalities, festivals, museums... as potential hosts for the exhibition.
- Media and PR will be organised and will benefit to partners.
- High-quality content can be leveraged by partners in several ways : as a ready-made exhibit, as a series of portraits...

*Space for a Sustainable World – Women in action*  
**Pre-launch timetable**  
**2020-2021**

- Concept, search for partners and financing  
**Jan 2020 – July 2020**
- Editorial & design  
The identification of profiles and content  
**September - October 2020**
- Photo and Video Production  
**October – November 2020**
- Exhibition design, editing, and production  
**Dec 2020 – Jan 2021**
- Inaugural exhibition  
**Feb 2021**

*Space for a Sustainable World – Women in action*  
**Partnership options**  
**2020-2023**

**FOUNDING PARTNER**

- The Founding Partner will be a co-producer of the exhibition.
  - a major visibility during the exhibitions, social media campaigns, and PR
  - Licence to use the complete collection of photos and videos (2021-2023)
  - Licence to use the exhibition (2021-2023)

**PREMIUM PARTNER**

- The Premium Partners will have visibility on all marketing and PR material and inside the exhibition at a second level just below the Founding Partner
- Licence to use the exhibition during (2021-2023)

**ASSOCIATE PARTNER**

- The Associate Partner will have visibility on all marketing and PR material and inside the exhibition at a third level below the Founding Partner and the Premium Partners.
