

SPAIN**National mechanism:**

Spain has not yet adopted a specific legal mechanism on space debris mitigation.

Description:

None.

Applicability:

None.

Relation to international mechanisms:

Spain, being a member of the Committee on the Peaceful Uses of Outer Space, supports the initiatives aimed at mitigating the impact of space debris, and in particular adheres to the Space Debris Mitigation Guidelines of the Committee. Similarly it supports the guidelines already developed in other international fora, such as the European Code of Conduct for Space Debris Mitigation, the IADC Space Debris Mitigation Guidelines, the ISO Space Debris Mitigation Requirements ISO 24113:2011 and the ITU Recommendation ITU-R S.1003. In addition, Spain supports the adoption of the International Code of Conduct for Outer Space Activities, whose draft is currently under discussion.
